Dear Martin

I have been reading with interest reports in the Halifax Courier regarding the Ravenscliffe at Spring Hall Project and delighted that it received Calderdale Council's approval in July of this year.

As a regular funder to Ravenscliffe High School & Sports College the Community Foundation for Calderdale is fully supportive of this fantastic project and vision for a resource that helps to meet the needs of the young people at Ravenscliffe.

Having been regular visitors to Ravenscliffe over the years CFFC also appreciates just how much space is a premium with the number of students on your register outweighing the availability of space, hence our support for what you are trying to achieve with the enhancing of your existing resources and improved learning opportunities for your wonderful students.

There is so much to get excited about with this project including the added benefit to the community through the enhancement of the Spring Hall Athletics facility and the provision of community accessible training rooms and a spectator/café area for the many groups of people who currently experience all weathers whilst supporting athletes of all ages at the track.

Please accept this letter of CFFC's absolute support for the Ravenscliffe at Spring Hall Project.

Kind regards.

Steve Duncan DL
Chief Executive Officer
