20 January, 2014

Dear Martin,

Thank-you very much for the welcome given to me by you, the staff and the students at Ravenscliffe High School during my recent visit, I was very impressed by the school's ethos, the standards it sets, and the high expectations it has for its students.

As an organisation that promotes cycling as an activity for everyone, CTC are very keen to support any organisation that shares this vision and commits to provide more cycling opportunities for the community. Whilst the school already has done substantial work on this front, it is great to see there is ambition to do even more and I'm keen to see the plans for the site at Spring Hall come to fruition. CTC has recently been commissioned to work with inclusive cycling centres across England, to help increase provision, to create case studies and to set a benchmark for a minimum standard for inclusive cycle centres to aspire to. The proposed development at Spring Hall will help do all those things. Most importantly it will be of great benefit to students, allowing them greater opportunities, as well as for other users of the site, such as local schools and the wider community.

I'm really looking forward to seeing how the site develops and I wish you every success.

Yours sincerely,

Gavin Wood
Cycling Development Officer
CTC, The UK's National Cycling Charity
